

Quality Policy

Fonderie Soliman Spa believes that the future of the company is focused on pursuing maximum **Customer satisfaction**. This satisfaction is achievable by Fonderie Soliman Spa - which operates in the field of **cast iron castings** using both automatic and manual molding systems, followed by finishing processes - by implementing a **Quality Management System** compliant with the **UNI EN ISO 9001:2015** standard.

The Management of Fonderie Soliman approved the company certification process according to the **ISO 45001** standard for Occupational Health and Safety. This certification was granted in **March 2021**.

The Management of Fonderie Soliman Spa has allocated the funds and provided the personnel and tools necessary to implement the Quality Management System, which will be constantly monitored and periodically evaluated by measuring the achievement of set objectives for controlled processes. In **2022**, new equipment was purchased for the internal **Metallurgical Laboratory**.

Fonderie Soliman Spa must pay the utmost attention to customer requests and expectations, to the requirements of applicable standards and regulations, and to the **continuous improvement** of the organization and the satisfaction of customers and interested parties.

Fonderie Soliman Spa must pursue quality in every phase of each process, where **every employee** is involved in achieving the objectives. The Management periodically verifies that this policy is appropriate to the company's purposes and context, implemented, and shared at every level of the organization, establishing objectives for continuous improvement and customer satisfaction.
